Dear Mr. Snider,

As you know, we have been using GDiesel for over a year now with great results. We use your product in our tool trucks which are GMC Duramax's, Bobcats, Cat Miniex and my personal truck, a Dodge Ram. In all our vehicles we have not had any problems what so ever. All vehicles started easily all winter even at low temperatures that were about 0° F.

We really like the way the GDdiesel burns a lot cleaner than diesel. The oil stays clean longer and requires less frequent oil changes. We also noticed our fuel mileage has gotten better by about 2 miles per gallon. The price is comparable to diesel with properties which are better than diesel. We are sold!

Sincerely,

Dan Price
