Reno, NV 89519-6431

Mr. Gunnerman

I just wanted to provide you with an update of our experience with GDiesel since we began using this fuel in our real world operations in January 2011. To date we have used approximately 400,000 gallons of GDiesel and the results are really quite remarkable.

Within days of using GDiesel our operators notice that the majority of, if not all of the black smoke from the exhaust was gone; this includes our off-road construction equipment and emergency generators.

Our rental car shuttle bus fleet at McCarran International Airport went from using 10,000 gallons of bio-diesel every 10 days to using 10,000 gallons of GDiesel every 11 days. The operators of these buses also notice they no longer smell the exhaust fumes like they did while operating on bio-diesel.

Our busses with particulate traps seem to be in less need of regeneration since the use of GDiesel has started.

The vehicle technicians noticed that when we change the fuel filters now they look in great shape compared to the fuel filters that were using bio-diesel. We are going to begin testing soon to see if we can modify the timeline on when we replace the fuel filters which we anticipate will result in further cost savings to the County without any degradation to the operation of the vehicle.

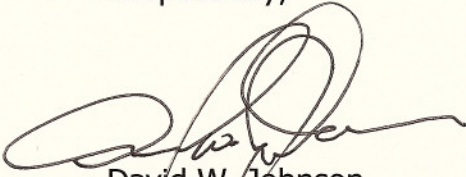

BOARD OF COUNTY COMMISSIONERS

SUSAN BRAGER, Chair • STEVE SISOLAK, Vice-Chair
LARRY BROWN • TOM COLLINS • CHRIS GIUNCHIGLIANI • MARY BETH SCOW • LAWRENCE WEEKLY

We used GDiesel in our snow removal equipment on Mt. Charleston this year and experienced zero issues with the fuel. The operators did notice the vehicles and equipment seemed to start easier with GDiesel than with regular diesel fuel we were using.

We will continue to monitor the use of GDiesel whether pro or con as time progresses and will provide you with updates. Our experience to date with GDiesel has been nothing short of excellence and it is a pleasure working with your company and we look forward to a very long partnership with Advanced Refining Concepts LLC.

Respectfully,
