Dear K.C.,

When you introduced us to GDiesel®, I was excited about a new product and couldn't wait to get the approval from Sinclair to allow me to carry it. I wanted to be one of the first to have a greener, more effective diesel fuel. After you branded us and included us on your web site, we noticed more and more inquiries about it. I even had a customer come and in and tell me that if I didn't have "that new GDiesel®, then he would take his business elsewhere. I assured him that it was GDiesel® and he proceeded to fill his tank.

My biggest fan is Ferd. He has a fleet of diesel vehicles and is excited about the increased mileage. He comes here exclusively to get fuel. Also, I have a couple of customers that I have not seen in years and now they come back because we have GDiesel®.

With the rising costs of fuel, it's nice to know GDiesel® is a cleaner burning, more efficient alternative to regular diesel at the same price. GDiesel® has made quite an impact on our business and has increased sales dramatically. I'm proud to display the GDiesel® sign at my location!

Sincerely,

Becky Nicks
Manager
